**Roofing:**

11) Apply the tar paper roofing to the sub roof panels using white glue. Start at the bottom edge of each panel, overlapping each subsequent row as you work your way up the roof. Cap the top with a folded piece to complete your roof. Now it can be painted and weathered as desired. Make sure to open up the two slots on the top of the marquee roof as you will need these slots for the next step.

**Marquee sign and posters:**

12) Paint the "MAJESTIC" sign then glue it into the slots on the top of the marquee as shown.

Assemble two more poster frames and place them on each side of the front doorways as shown.

Your kit is now completed and ready for your layout. We hope you've enjoyed this kit. If you have any problems or comments, please contact us.
